3. FILLING THE APPLICATION FORM

This is the MOST IMPORTANT PART of the application procedure. It consists of the following important sections:

a. Writing Essays for each application.

We will assist you fully in writing the essays because the quality of the essays can make the crucial difference between getting selected and getting a reject.

We will evaluate your essays, filter out irrelevant content, edit the syntax of your sentences and help you structure the answers so as to make them more appealing to the B-school Admissions Panel.

Our key area of focus here will be the Content of your Answers to the Essay Questions i.e. what is it that YOU should mention based on your profile that will set you apart from OTHER candidates and thus help improve your chances of selection.

Our services will cover up to 12 Essay Questions for you. Additional Essays, if required, may be provided.

b. Writing the Resume

Most colleges also insist on a well written Resume (often just a One Page Resume) from the candidate. We will help you prepare the same, so that your resume is concise, appealing and also consistent with the rest of your application.

c. Statement of Purpose (SoP)

A Statement of Purpose (SoP) tells the Admissions Panel why you wish to pursue their course and is an important part of the application. We will help you prepare your SoP to make it more presentable.

d. Letters of Recommendation

These are to be obtained by the candidate from Past/Present Employers, Professors or College Principals. We will guide you in terms of identifying who should provide you with the letter(s) of recommendation, and will also help you with any other aspect of the same.

In addition to the above, we will also provide you with guidance in other aspects of the application such as Obtaining Financial Assistance, your actual Forex Remittance and your Visa Application.
